

# Custom Objectionable Organism and Microbial Controls

## Derived from Leading Culture Collection Strains

Microbiologics offers the most diverse line of control strains and formats for fast, reliable QC testing. When a specific strain is not available in our retail portfolio, our custom production team routinely produces test-ready controls for objectionable organisms.

The list below shows the breadth of strains we have successfully developed into test-ready custom control products. If you need a specific strain or other specialized control, simply connect with our team to get started!
